

Camino Portuguese - Porto to Santiago

Overview:

Considered the most spiritually connected pilgrimage route, following the path St James' body took to its resting place at the site of Santiago de Compostela, this quiet inland stage offers a wealth of history. From the lively city of Porto, set on the banks of the Douro River and famous for its port wine production, the journey north travels through small hamlets, past eucalyptus and pine woods, over ancient bridges and through larger market towns dating back to Roman times. Throughout the journey there are ample reminders of past pilgrims and the route offers many insights into the religious significance of the Camino. Visually stunning in parts, there are many advantages in walking the Portugués route with the ascent to the highest point on the trail at Alto da Portela Grande (405m) rewarded with sweeping views of the Lima Valley below. Crossing the Spanish border and walking the last 100km through Galicia to the holy city of Santiago ensures you qualify for the Compostela certificate upon your arrival at the cathedral.

Itinerary: Available 1 March to 31 October

- **Day 1:** Arrival in Porto.
- **Day 2:** Transfer from Porto to Mosteirô and walk to Arcos (17km).
